Subject: New Powerpoint 'Pesticide Applicator Recertification Credit Form' Available Online for Trainers

Pesticide applicator recertification credits awarded vary from course to course according to course subject matter and are assigned by the New Jersey Department of Environmental Protection. See <http://www.pestmanagement.rutgers.edu/PAT/recertification.htm> for a listing of the current courses and a new tool for recertification trainers as described below:

New! We have made a **PowerPoint slide of the 'NJDEP recertification credit form' for use of those conducting training sessions** for recertification. Click on the hyperlink, save the file, and you can directly edit it. Specifically, you can insert the credits your course is awarded for your attendees to copy down onto their forms at the close of your courses; it is animated so you can give them each piece of information to write on the form separately.
